DETAILED ACTION

This is an Allowance for application no. 10/081,926 in response to the amendment filed on May 19, 2005 where in claims 1-23 are presented for examination.

Response to Arguments

Applicant's arguments, see pages 8-10, filed May 19, 2005, with respect to claims 1-4, 6, 7, 9-12, 14, 16-19, 21 and 22 have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

Allowable Subject Matter

Claims 1-23 are allowed.

The following is an examiner's statement of reasons for allowance:

The examiner was unable to find the claimed features in several prior art searches. The closest prior art (Wilson US Patent 5,754,240) discloses a similar pixel averaging method and system as depicted in Figure 7 (Col 5 Line 66-Col 8 Line 10). However, Wilson fails to particularly teach or suggest the use of rounding vector and carry vector as required by the claims. Therefore these features taken with the others in the claims teaches over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
